# Vermicompost: Do's And Don'ts

© Benjamin Juarez — 2022-04-09

---

## Feed The Earthworms!

### NO

Meat  
Dairy  
Oils Salt  
Spices Citrics  
Acidics: Onion Garlic  
Animal Feces  
Seeds Tubers: Potato  
If in doubt, do not feed

### YES

Raw Fruit  
Raw Vegetables  
Eggshells  
Used Coffee Tea  
Inkless Paper  
Shredded is always better  
Green Clippings: Grass Branches  
Water

## Compost Bin Placement and Moisture

### Scenario

It's too hot outside  
Soil is dry and earthworms won't eat  
Accelerate the process  
Vermin  
Bad odor

### Solution

Move the batch under roof, with a shade, outdoors  
Add water and review (pH) balance: green/brown  
Move the compost around to add oxygen  
Put a lid on top  
Leave it dry and add more brown

## Compost Bin Models

- Industrial Size, 5 Gallon Paint Buckets [Spanish]. More info
